

The Astigarraga (Gipuzkoa) riverside park is completed with an exercise area, zip line, meeting place, and skill area made with Robinia.

The Andre Gobadarien Parkea riverside park project (Astigarraga) is now operational, meeting the goals of urban development, flood control, recreation promotion, and preservation of the river's natural habitat. The park, made with robinia wood, now features various recreational areas for all ages:

- **Skill area:** Space for children and teenagers with slides, ropes, and platforms.
- **Zip line:** Complementary facility to the skill area.
- **Meeting place:** Gathering point by the pond to enjoy the water.
- **Exercise area:** Spaces for calisthenics and exercise machines for the elderly.
- **Water area:** Play area with water jets and a trough-type fountain.
